

Changer map

Changer map

Stopper le docker

```
sudo docker-compose down
```

Path des data du serveur

```
cd /mydisk/cloud/confcloud/minecraft/data
```

Vérifier le nom de que la map utilise

```
sudo cat server.properties | grep name
```

level-name=World

Voici mon world

```
ls World
```

data datapacks paper-world.yml playerdata region session.lock
uid.dat

apres avoir remplacer les fichier du dossier world relancer le docker

```
sudo docker-compose restart
```
